PROFESSIONAL SUMMARY

iOS Developer with 2+ years of experience at Accenture building connected-car applications used by 50k+ daily active users. Shipped 7+ customer-facing features across connected-car iOS applications for a leading automotive client using Swift, SwiftUI, and VIPER architecture, maintaining a 4.1-star App Store rating across 52k ratings. Strong in reusable UI components, REST API integration, and Figma-to-code collaboration. Known for delivering reliable releases ahead of schedule and presenting demos to client stakeholders.

WORK EXPERIENCE

Packaged App Development Associate | Accenture

Feb 2024 – Present | Bengaluru

Leading automotive client | Connected-car iOS applications

- Delivered **7+ customer-facing features** across multiple automotive iOS apps using **Swift, SwiftUI, and VIPER architecture**, including:
 - Remote start & lock** – let customers control their vehicle remotely from the app.
 - Vehicle diagnostics** – surfaced vehicle health information to customers in the app.
 - EV charging status & maintenance alerts** – kept customers informed of charging progress and service needs.
- Supported **50k+ daily active users** and a **4.1-star App Store rating** across 52k ratings.
- Worked sequentially across multiple connected-car applications, reusing VIPER modules and UI components to **speed up development on each new project**.
- Integrated backend services through REST APIs and translated Figma designs into production-ready SwiftUI screens in close collaboration with designers.
- Partnered with designers, testers, and backend teams across **3+ departments** to deliver major releases **ahead of schedule**.
- Presented feature demos to client stakeholders and incorporated their feedback into releases.

PERSONAL PROJECTS

- The Yellow Door** – Fashion app concept designed in Figma, covering the main app flow and user research.
